

Match Lab is a design workshop to bring customised consulting regarding products and interior design projects to your store.

A place to meet, consult and collaborate, allowing you to analyse, develop and design the space together with the customer.

Match Lab is also an App, available to both showroom manager and end user, that 'matches' the porcelain tiles with stone, wood, marble or concrete effect in numerous ways in order to bring your space to life with combinations devised by interior design specialists.

Match Lab

Simple and effective consultancy

Find the Match Lab logo in the showroom.

There you will find the ceramic combinations to decorate your spaces. Using the app, you can access a great many matches and personally check these with your dealer. You can test matches suggested by our designers with the use of small samples and assess the most interesting.
