# Our values/

## Made in Italy

Selezioniamo le migliori materie prime e, secondo canoni estetici e funzionali, le trasformiamo in prodotti che interpretano con creatività il gusto italiano. Utilizziamo in uguale misura passione e tecnologia, cura del dettaglio e precisione, chimica e cultura, estetica e attenzione all'ambiente. Per noi Made in Italy è racchiudere tutto questo in ogni singolo prodotto.

## Made in Italy

*We pick the very best raw materials and we follow aesthetics and functional criteria to turn them into products embodying Italian taste and excellence. We sharply combine passion and technology, creativity and accuracy, science and culture, and environmental friendliness. To all of us, Made in Italy means gathering these features into every single product.*

## Greenthinking

Recuperiamo il 100% dell'acqua, autoproduciamo il 65% dell'energia, differenziamo il 98% dei rifiuti. Siamo stati i primi del settore ceramico a ottenere la certificazione PEF e tra i primi a guadagnarci l'EPD, la FDES e la HPDC. La maggior parte dei nostri prodotti è compatibile con lo standard LEED - Leadership in Energy and Environmental Design. Questo per noi è Greenthinking: un promessa molto seria, un impegno quotidiano.

## Greenthinking

*We recycle 100% of our water, produce 65% of our energy, separate 98% of our waste. We were the first company in the ceramic industry to obtain PEF certification and were among the first to earn the EPD, the FDES, and the HPDC certifications. The majority of our products comply with the LEED - Leadership in Energy and Environmental Design - standard. Greenthinking implies a solemn promise, an everyday commitment.*

## ISPIRAZIONE/ INSPIRATION

### Superficie continua

Tre spessori, quattro formati, cinque finiture, 15 collezioni, più di cinquanta colori: sono i numeri di Plus, la raccolta di lastre firmata Ceramiche Keope. Un progetto unico, in cui le elevate prestazioni tecniche e la bellezza di superfici straordinariamente ricercate esaltano l'impatto visivo del grande formato. Perfette per interni ed esterni, in tutti i contesti residenziali e commerciali, le lastre Plus moltiplicano le possibilità espressive dell'architettura contemporanea.

### Continuous surfaces

*Three thickness options, four sizes, five finishes, 15 collections, more than fifty colours: these are the figures of Plus, the collection of slabs by Ceramiche Keope. A unique project, where exceptional technical performance and extraordinarily refined surfaces enhance the visual impact of large sizes. Perfect for interiors and exteriors, in all residential and commercial contexts, Plus slabs multiply the expressive possibilities of contemporary architecture.*

Resa estetica superiore  
*A superior aesthetic performance*

Continuità di superficie pavimento-rivestimento  
*Continuity between walls and floors*

Versatilità d'uso  
*Great versatility*

Performance del gres porcellanato  
*The performance of porcelain stoneware*

Riproducibilità perfetta di materiali naturali  
*Perfect reproducibility of natural materials*

Ideale per interni ed esterni, in contesti residenziali e commerciali  
*Ideal for interiors and exteriors, in residential contexts*

### Libertà di scelta

La vocazione panoramica della lastra 120x240, la leggerezza del rivestimento 120x278 a spessore 6 mm, la forza materica dello spessore 20 mm per esterni: il bello è poter scegliere. Plus è libertà espressiva, che mette in luce la raffinata complessità grafica della superficie e permette la totale continuità tra pavimenti e rivestimenti, tra interni ed esterni, per soluzioni architettoniche di grande effetto.

### Freedom of choice

*The panoramic vocation of the 120x240 slab, the lightness of the 120x278 wall slab with a thickness of 6 mm and the substantial strength of the 20 mm thickness for exteriors: it's great to be able to choose. Plus is freedom of expression. The refined complexity of the surface patterns gives you the chance to create continuity between walls and floors, as well as between indoor and outdoor spaces, to obtain architectural solutions with a great visual impact.*

COLORI/  
COLORS

**5**  
FINITURE/  
FINISHES

**Ricerca estetica**

Marmo, pietra, legno, cemento, resina: Plus parla cinque linguaggi, quelli dei materiali a cui si ispira. Le grandi lastre, con le loro finiture raffinate e le superfici piacevolmente irregolari, esplorano ispirazioni naturali e contemporanee con una cura del dettaglio che non lascia nulla al caso. Una ricercatezza estetica e un ventaglio di possibilità che aprono infinite prospettive alla progettazione, proponendo un nuovo modo di concepire l'architettura.

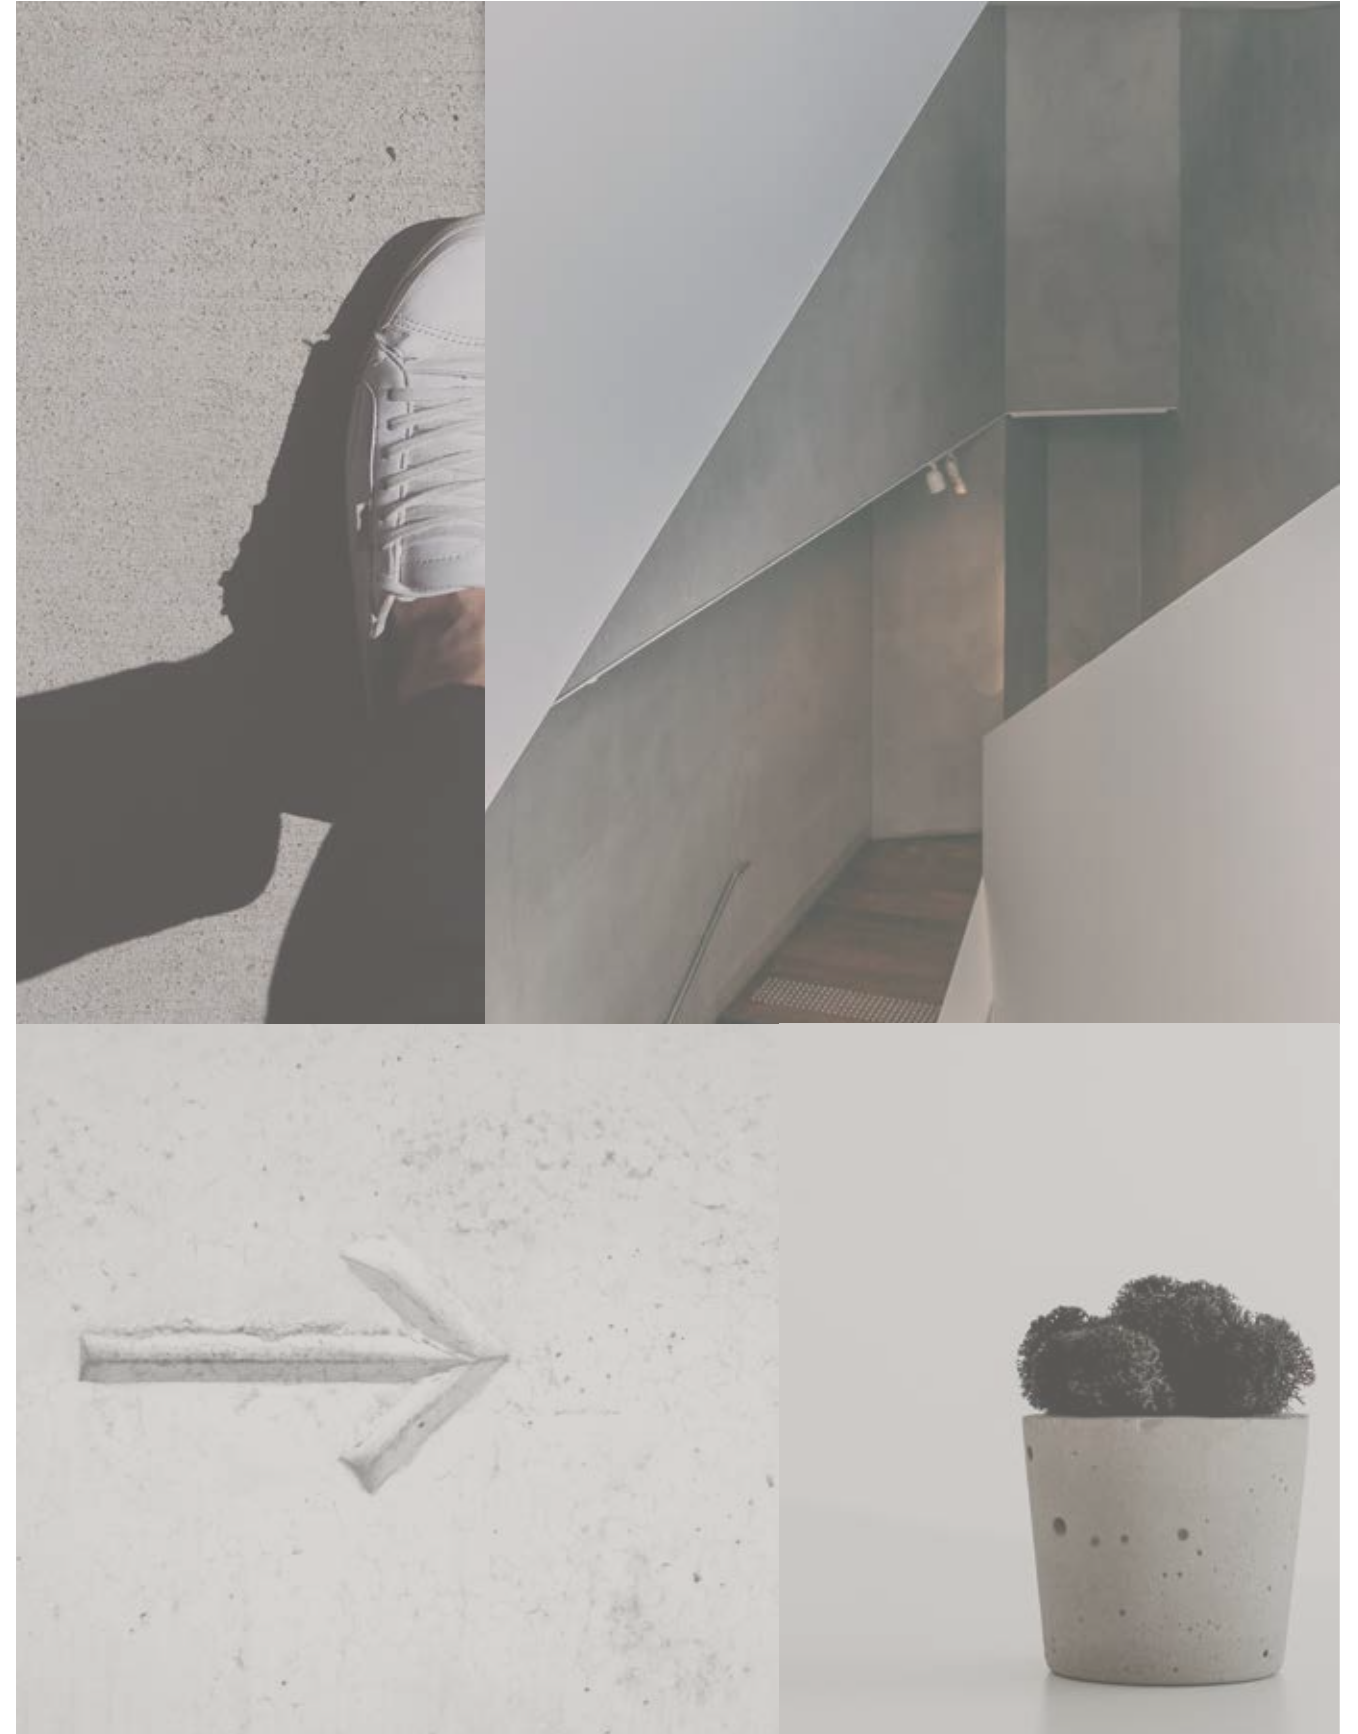

**Aesthetic research**

*Marble, stone, wood, concrete, resin: Plus talks five languages, those of the materials that inspire it. Large slabs, with their refined finishes and pleasantly irregular surfaces, explore natural and contemporary inspiration, with a care for detail in which nothing is left to chance. Sophisticated aesthetics and a range of possibilities than open up infinite perspectives for design and suggest a new manner of conceiving architecture.*

Piastrelle pressate a secco - Conforme alla norma EN 14411 e ISO 13006 appendice G gruppo B1-a con E ≤0,5%  
Dry pressed tiles - Compliant with standards EN 14411 and ISO 13006 annex G group B1-a with E ≤0,5%

Ceramiche Keope raccomanda l'utilizzo delle lastre in spessore 6 mm per le sole applicazioni in ambito residenziale, commerciale a traffico leggero e comunque in contesti ove non vi sia passaggio di carichi puntuali pesanti o transito di carrelli a ruote dure. Oltre all'utilizzo a rivestimento è inoltre possibile posarle su pavimenti preesistenti in marmo, pietra naturale o ceramica, senza la necessità di demolire la pavimentazione sottostante.

Per l'applicazione su massetto Ceramiche Keope consiglia l'utilizzo del gres porcellanato in spessore tradizionale.

Per una posa ad opera d'arte, consultare Consigli di posa, pulizia e manutenzione al link **keope.com**

Ceramiche Keope recommends the use of 6 mm thick tiles only for residential and low traffic commercial applications. These tiles are not recommended for applications involving the transit of heavy loads or hard-wheeled trolleys. 6 mm thick tiles can be installed as wall coverings and as floor coverings over existing marble, stone or ceramic floors without having to demolish the previous floor.

Ceramiche Keope recommends the use of porcelain tiles of conventional thickness for applications over screed.

To ensure a perfect finish, consult the recommendations for laying, cleaning and maintenance available from **keope.com**
